REUSABLE QA TEMPLATE

Bug Report Template

Copy this structure for each defect. Describe what happened, how to reproduce it and why it matters - without assuming the root cause.

Defect details

BUG ID	DATE REPORTED	REPORTED BY
[e.g., QA-0142]	[YYYY-MM-DD]	[Name or team]

DEFECT TITLE / SUMMARY
[Concise description: what failed, where and under what condition]

AFFECTED FEATURE / SCREEN	BUILD / ENVIRONMENT
[Page, endpoint, workflow]	[App version, test/staging/prod, browser/device]

SEVERITY / IMPACT	SUGGESTED PRIORITY	REPRODUCIBILITY
[Blocker / Critical / Major / Minor]	[P0 / P1 / P2 / P3 per team policy]	[Always / Sometimes / Once]

Reproduction details

PRECONDITIONS AND TEST DATA
[Account/role, starting state, relevant inputs. Use anonymized data.]

STEPS TO REPRODUCE
1. [First action] 2. [Second action] 3. [Third action] 4. [Observe the result]

EXPECTED RESULT
[What should happen? Reference the acceptance criteria or requirement where known.]

ACTUAL RESULT
[What happened instead? Include precise messages, values or observed behavior.]

Evidence and follow-up

EVIDENCE / ARTIFACTS
[Screenshots, video, sanitized logs, request/transaction IDs]

IMPACT / SCOPE
[Affected users, data, money, security or frequency]

RELATED ITEMS / NOTES
[Linked story, existing bugs, workarounds or investigation notes]

WORKED EXAMPLE

Example: Checkout discount not applied

A realistic example showing the level of detail that helps developers reproduce and investigate a defect.

Defect details

BUG ID	DATE REPORTED	REPORTED BY
QA-0142	Example only	QA Team

DEFECT TITLE / SUMMARY
SAVE10 code is accepted, but checkout total does not include the 10% discount

AFFECTED FEATURE / SCREEN	BUILD / ENVIRONMENT
Cart -> Checkout	Staging; web; Chrome desktop; build 2.6.1

SEVERITY / IMPACT	SUGGESTED PRIORITY	REPRODUCIBILITY
Major - incorrect payable amount	P1 - confirm with product team	Always (3/3 attempts)

Reproduction details

PRECONDITIONS AND TEST DATA

Test account with no other active promotion; eligible item priced at KES 5,000; promo code SAVE10.

STEPS TO REPRODUCE

1. Sign in with a test account on staging.
2. Add the eligible KES 5,000 item to the cart.
3. Enter SAVE10 and click Apply.
4. Continue to checkout and inspect the total before shipping/tax.

EXPECTED RESULT

The 10% discount (KES 500) should be reflected. Subtotal after discount: KES 4,500, before delivery charges and tax.

ACTUAL RESULT

The UI confirms that SAVE10 was applied, but the checkout subtotal stays at KES 5,000. The KES 500 discount is not reflected.

Evidence and follow-up

EVIDENCE / ARTIFACTS
checkout-cart.png; checkout-total.png; sanitized browser network trace

IMPACT / SCOPE
Potential customer overcharge where eligible promotions are accepted but not applied

RELATED ITEMS / NOTES
Compare cart and checkout price calculations. Root cause not yet determined.
